ChatGPT

What is ChatGPT?

- ChatGPT is a chatbot based on a Large Language Model (LLM). That means you can ask a question (prompt) and ChatGPT will write a text for it. This ranges from writing a limerick to writing scientific articles. To generate text, ChatGPT does not need to understand the prompt (and the answer). Instead, the prompt gives the chatbot a context within which it will use probability to see which words best line up, forming sentences. It generates new unique text and does not show existing texts (like ordinary search engines). It is therefore not possible to check the authenticity of texts with plagiarism software.

“

We used to it to:

- Create a poem about Winter
- We gave some winter words to ChatGPT
- we gave the instruction to ChatGPT to write a poem that rimes.

And it created a beautiful poem for us!!!

This is our song in Greek: Χειμώνας

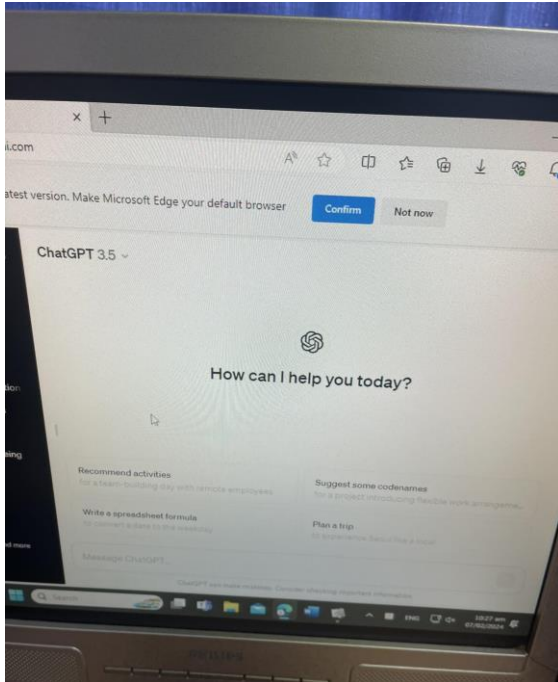

Φυτρώνουν λουλούδια στον κήπο αγάπης,
Και σύννεφα χορεύουν στον ουρανό πάνω.
Καλοκαίρι φτάνει, με λάμψη και ζεστασιά,
Και η θάλασσα καλεί σε μια βουτιά αναζωογόνησης.

Φθινόπωρο έρχεται, τα φύλλα πέφτουν απαλά,
Χρώματα νέα χαρίζουν στο δάσος ομορφιά.
Μια χιονοθύελλα στον ορίζοντα αναβλύζει,
Και η φύση αντιστέκεται, με γοητεία αναδύει.

Χειμώνας φέρνει το χιόνι να χαρίσει σιγή,
Και με το πέπλο του λευκού, η φύση κοιμάται στη γη.
Χιονοπόλεμος και χιονάνθρωπος γελοιογραφία,
Στον παγωμένο κήπο, μια πανδαισία φαντασίας.

Έτσι, περνώντας από τις εποχές της χρονιάς,
Μια ροή αιωνιότητας, μια αιώνια χορευτική γιορτή,
Και ο κηπουρός φροντίζει με αγάπη και μεράκι,
Για να ανθίσουν ξανά τα λουλούδια, στον κήπο μας να γίνει γιορτή.

A fully integrated suite of image-generation tools

We created amazing pictures to accompany our poem created in ChatGpt. We create amazing images with the power of AI, through getimg.ai. This is a suite of magical AI tools that can help generate original images at scale, modify photos, expand pictures beyond their original borders, or create custom AI models.

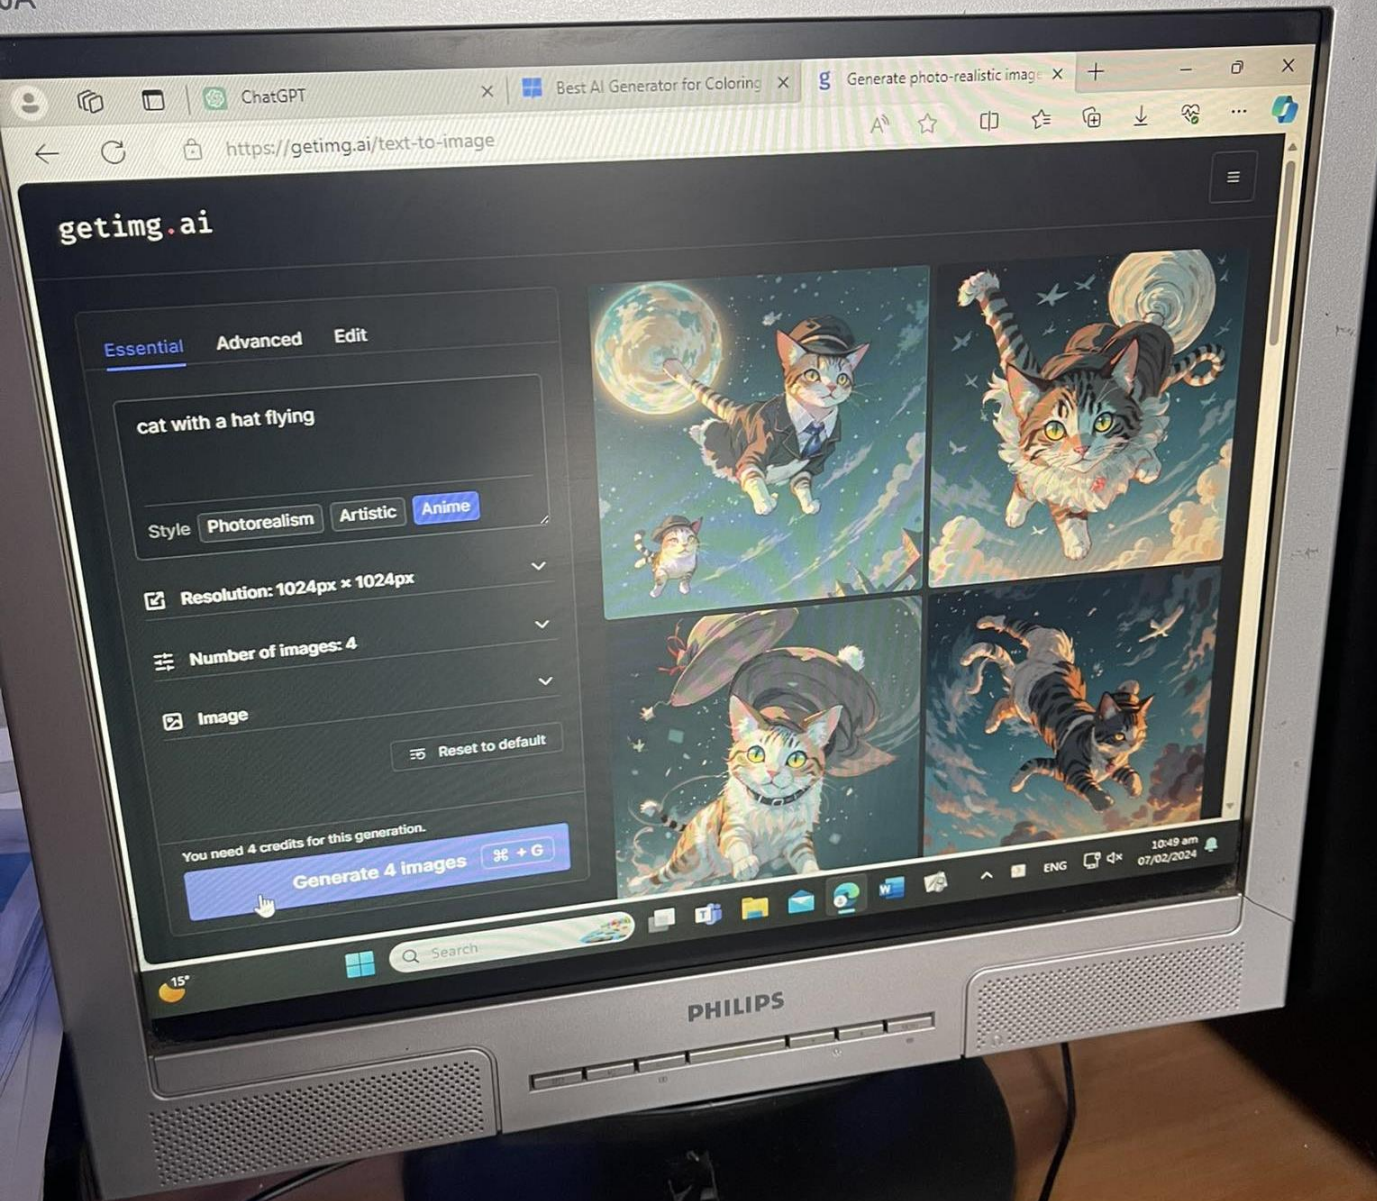

“

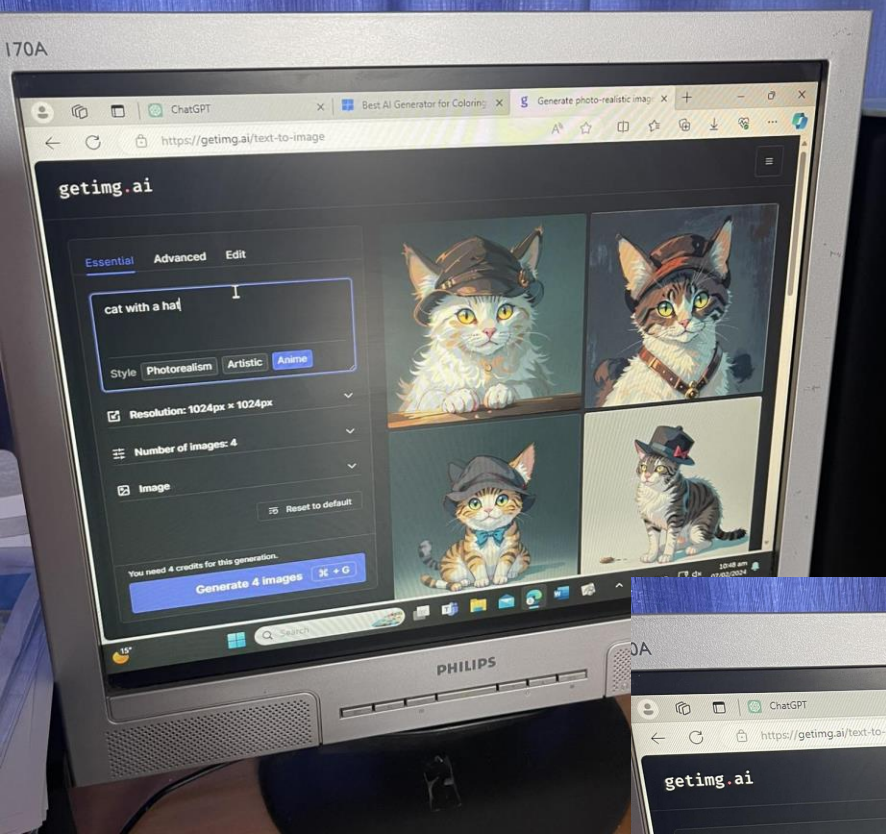

We used to it to:

- first created funny pictures with a “cat with a hat flying up in the sky”
- The more info we gave to the getimg.ai the more beautiful and specific the pictures appeared
- Then we gave some words from our poem created in ChatGPT
- The more words we gave coming from the poem, the more specific were the pictures generated.
