

OCTOBER TASK

OCTOBER 2022

We have six classes to exchange students with Italy, Cyprus and Iceland. It was very exciting and extraordinary way for our students to know someone abroad. They like doing this work so much.

All the writings are not very clear to understand. They can not notice some names and confused about the gender, but this is making this work enjoyable.

By the help of the letters and their imagination they draw the pictures of their new friends and wait for their drawings inquisitorially. Some of the drawings really resemble each other.

At the end of this work I think it will be good to have an online meeting to introduce themselves. May be it can be possible to develop their friendship.

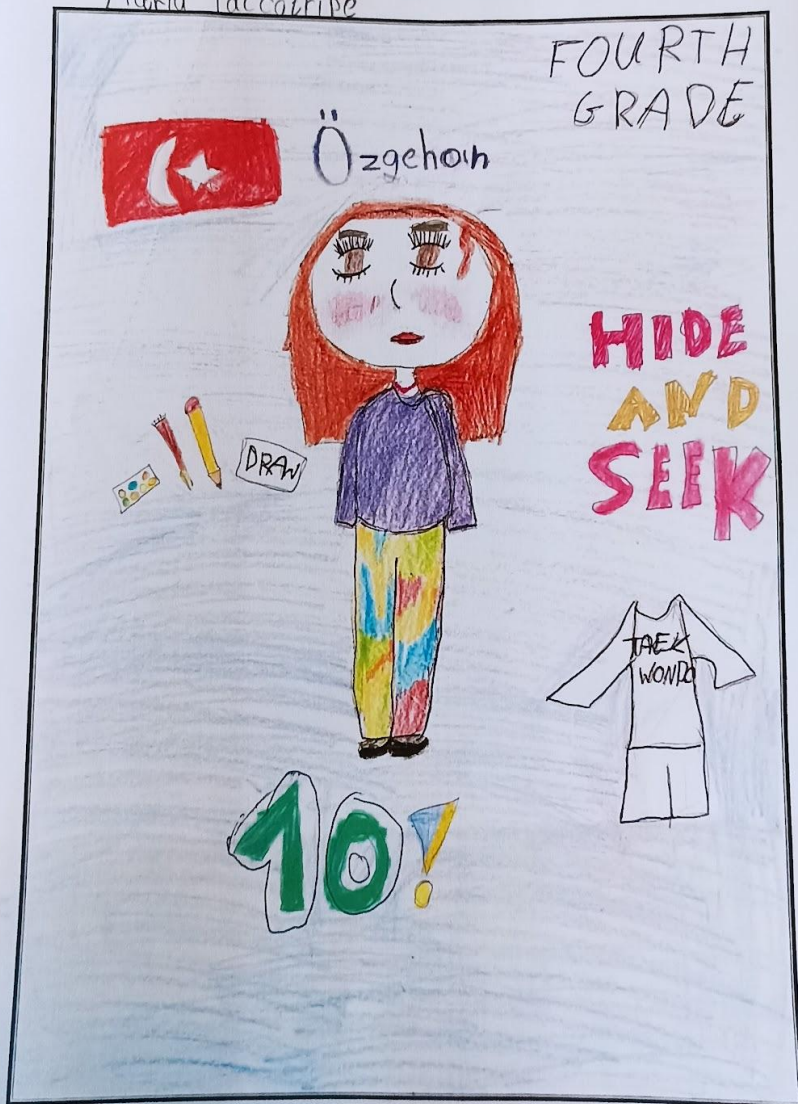

Here are some beautiful examples.

Hello I'm Pelin Cindy I'm nine years old I'm from Izmir. I'm fourth grade. I have a straight and long hair. I have brown eyes. My favorite color is blue I love sandwich I like hide and seek. My height is one hundred forty five cm. I'm forty kilo I like drawing pictures. Elevators are scaring for me.
