## Exchange of students descriptions

In this month's project we worked with an exchange of the students' descriptions of themselves. Denmark and Portugal worked together.

The Portuguese students have very beautiful handwriting, which the Danish students had a little difficulty in reading, but it worked out in the end. ;)

We were a bit confused about the gender of the children we write with. We hope we guessed right. ;) There are fewer students in the classes in Portugal, so the Danish students are in some cases two for one pen pal.

### Overview of our work in october

- The students in Denmark and Portugal made a description of themselves (two different classes)
- Teachers paired them with a student from Portugal/Denmark
- Exchange of the letters from the students when we were in Portugal on Erasmus visit.
- When we got back home the students had to draw their pen pal and write a letter to them.
- We will exchange the drawings and letters in Cyprus at our next meeting.
- We will keep writing to each other. They will hopefully continue to be pen pals.
