

Makedonitissa B
Primary School

School year:2023-2024

Theme: Recycle

In our school yard....

In the context of the Environmental Education lesson, the children of E1 went outside to the school yard.

They noticed that although there are trash cans in almost all recess areas, there was still trash thrown.

They wondered why this was happening and proposed various solutions such as putting trash cans in more places or showing the rest of the school children our own observations on photos.

TRASH OR RECYCLE

Recycle tips

In the next lesson the students watched a video prepared by a waste management company (Green Dot) related to recycling pmd.

<https://www.youtube.com/watch?v=Br8Va7MAc5c>

- ▶ The children played the game presented in the video
- ▶ and enriched their knowledge about this type of recycling.
- ▶ However, the education never stops!
