

MARCH WORK – SELFIE FOR TEACHERS

Technology understanding and sustainability in practice Project gave the teachers a chance to improve themselves and study with digital Works. At the beginning of the Project the first Selfie for teachers assesment showed the teachers that they are not using technology or digital Works effectively in their classes. Day by day in this Project we are learning new things and we make our students to learn and use digital sources. I will share the progress of the teachers by comparing the results of 2022 and 2023.

ASAF teacher : His second and sixth area need to be improvep. After the first assesment he started to study on digital resources and make his students aware of these. (he studied with the special needs students.) he improved his second area from B1 to C1 . On the other hand the sixth one increase to % 75 from %44 . He is satisfied with his improvement and learning about digital platforms and renew himself.

MARCH 2023

NiL teacher: She noticed that she should improve herself about 4-5-6th areas. First she started to find out different digital sources as teaching materials. Then she started using them actively and make her students to use them as a material for learning or revision of the lessons. Her students immediately started to use these sources effectively. She improved the Assesment from %22 to %78 and Empowering learners from %29 to % 83. The sixth area increase to %81 from %31. It is a good progress for her and she is really happy to see her improvement.

Results by area

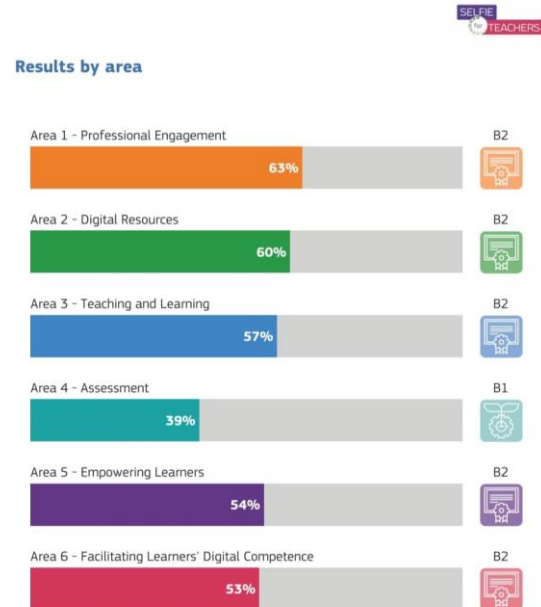

MARCH 2023-04-01

ÖZEN teacher: working on digital sources and coding using more technology in the lessons make Özen teacher more capable of using these in her lessons. She thinks to study on these platforms more and be effective in her lessons. She improved her self especially the 1st – 4th and 6th areas more.

FEBRUARY 2022

MARCH 2023

As a result of the last Selfie for teachers assessments survey we experienced that we improved ourselves in most of the areas. After the cooperation with our partners we discovered new digital sources and web2 tools and we are learning to use them effectively in our lessons. After seeing the results the teachers noticed that there is no limit to learn one more time. The teachers attended the assesment test have been working over 25 years as a teacher. They are all happy because of improving themselves and catching up with the time so they can upgrade themselves and reach their students.

Thanks to all the partners and our dear coordinator Micheal .
