

UN GLOBAL GOALS: GOAL 13: CLIMATE ACTION

**Digital Jigsaw
Puzzle**

Sustainable Global Goals

First of all Un Global Goals are introduced to the 1st graders. They solved digital puzzle in order to be aware of the goals.

13: Climate Action

Each student studied on the smart board.

**Digital Jigsaw
Puzzle**

**Coloring pages of
the goals**

Paper works

They also learned all the goals by coloring pages.

Videos about Climate change

Students watched some videos about the climate change and the importance of the Climate Action and their roles in this situation.

Videos

**Cooperation
works on WordArt**

Word ART Studies

Students prepared some remarkable posters about Climate action.

UN GLOBAL GOALS: GOAL 13: CLIMATE ACTION

Bulletin Boards

Bulletin Boards about the facts of Climate Change

Students prepared bulletin boards displaying how to save water and energy, what the sustainable environment is, Recycling and Climate action.

Designs for Sustainable Environment

Students designed solar panels, water harvesting system and eco-friendly houses.

**Designsment of
the Students**

Upcycling

Upcycling

The first graders also prepared some bookmarks from the wastepaper in order to take attention to the upcycling and Reusing.

It was a good experience for the youngest students in our project to be aware of the UN Goals and study on this subject together.
